

BALLOONS OVER BURMA

<https://www.2thepointnews.com/balloons-over-burma-4/>

From the 900s to the 1200s, the Pagan Empire built over 10,000 Buddhist temples. 2,200 remain on the plains of Pagan today, one of the world's most wondrous sights – especially if you see them from above in a hot air balloon. It is truly astounding how much there is to explore and experience in Burma. We'll be there once more for it all next February. I hope you will be one of your fellow TTPers to join us.
