

LETHAL BEAUTY

<https://www.2thepointnews.com/lethal-beauty/>

Want to get this close to a leopard – and safely? Come with me on a safari in Africa and I'll show you how. Yes, she's lethal – to the animals she hunts, not you. Yes, you can make such lethal beauty an indelible part of your life.

We really do only live once on this Earth. You really do owe it to yourself to make the most of it. You really can't take it with you. It really is time to live your dream, to fill your soul with life-memorable experiences. Life lasts but a snap of the finger.

So what adventures have you always dreamed of? Let me know and maybe you and I can make them become real together. I'm only an email away: . (*Glimpses of Our Breathtaking World #204* photo ©Jack Wheeler)
