A super spy descended from the

ceiling and stole the Supreme Court's majority opinion that would overturn Roe v Wade and leaked it to the press. Dozens of people across the nation are furious because this will "ruin my weekend murder plans!"

Here are just a few of the terrifying consequences of Roe being overturned:

- 1) *You'll carry your child to term and have the miraculous, joyful, and beautiful experience of giving birth while your life is enriched and filled with meaning:* Who could want that? UUUGGGHHH!
- 2) *All women will be issued Handmaid's Tale outfits and then it will be really hard to find your wife at the mall:* Super inconvenient!
- 3) *Women with life-threatening pregnancy complications will be hunted for sport:* And only at exclusive country clubs that don't allow minorities. So backward!
- 4) *Professional hitmen will only be able to knock off children in certain states:* It's hard enough having an illegal job. Hopefully, Congress can step in with a stimulus check.
- 5) *Planned Parenthood workers will have to find somewhere to stab people in the head on their own time:* OJ probably knows a good spot.
- 6) *Pregnant men will be forced to give birth:* Gross!
- 7) *More minorities will be born:* Poor Bill Gates!
- 8) *Hordes of unwanted babies will roam the streets, terrorizing America's cities and creating a post-apocalyptic hell-scape:* They will enslave us all with their cuteness!
- 9) *Democrats will all simultaneously remember what a 'woman' is:* This could set LGBTQWTF rights back big time!
